

March 29, 2001

Commissioner  
Food and Drug Administration  
Docket Nos. OOD-1598 and OON-1396  
Dockets Management Branch  
5630 Fishers Lane  
Room 1061 (HFA 305)  
Rockville, MD 20852

Dear Commissioner,

Enclosed please find petitions containing 982 signatures calling for independent, pre-market safety testing and labeling of genetically engineered foods as well as the assumption of liability by biotech companies for any harms these engineered foods may cause.

Please count the petition statement as a formal comment for each signer in FDA docket numbers OOD-1598 and OON-1396.

Sincerely yours,

Bill Freese

Safer Food – Safer Farms Campaign  
Friends of the Earth

OON-1396

# Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
  - a) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - b) They are labeled to ensure the consumer's right-to-know, and
  - c) The biotechnology corporations that manufacture them are held responsible for any harm to human health or the environment.
  
2. I call on the Food and Drug Administration (FDA) to set stronger regulations governing all genetically engineered foods by requiring thorough pre-market safety and environmental testing, as well as labeling for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA Docket Numbers 00N-1396 and 00D-15981.

# Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
  - a) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - b) They are labeled to ensure the consumer's right-to-know, and
  - c) The biotechnology corporations that manufacture them are held responsible for any harm to human health or the environment.
  
2. I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.

# Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
  - a) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - b) They are labeled to ensure the consumer's right-to-know, and
  - c) The biotechnology corporations that manufacture them are held responsible for any harm to human health or the environment.
  
2. I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.

# Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
  - a) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - b) They are labeled to ensure the consumer's right-to-know, and
  - c) The biotechnology corporations that manufacture them are held responsible for any harm to human health or the environment.
  
2. I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:

- Independent safety testing demonstrates they have no harmful effects on human health or the environment,
- They are labeled to ensure the consumer's right-to-know, and
- The biotechnology corporations that manufacture them are held responsible for any harm to human health or the environment.

I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.

# STOPFRANKENFOOD.ORG

A campaign to test and label genetically engineered foods

## Petition to Support a Temporary Freeze on the Sale of Genetically Engineered Food

**Your  
Logo  
Here**

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
  - a) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - b) They are labeled to ensure the consumer's right-to-know, and
  - c) The biotechnology corporations that manufacture them are held responsible for any harm to human health or the environment.

I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number OOP-1211/CP 1.

## Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
- Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - They are labeled to ensure the consumer's right-to-know, and
  - The biotechnology corporations that manufacture them are held responsible for any harm.
2. I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.

# Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
  - a) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - b) They are labeled to ensure the consumer's right-to-know, and
  - c) The biotechnology corporations that manufacture them are held responsible for any harm.
2. I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.

## Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
- Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - They are labeled to ensure the consumer's right-to-know, and
  - The biotechnology corporations that manufacture them are held responsible for any harm.
2. I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.

## Petition to Support A Temporary Freeze on the Sale of Genetically Engineered Food

Dear industry and government officials:

1. I call for genetically engineered food ingredients or crops to be removed from the market unless:
  - a) Independent safety testing demonstrates they have no harmful effects on human health or the environment,
  - b) They are labeled to ensure the consumer's right-to-know, and
  - c) The biotechnology corporations that manufacture them are held responsible for any harm.
2. I call on the Food and Drug Administration (FDA) to label all genetically engineered food and to develop thorough pre-market safety and environmental testing for genetically engineered foods. I request that my statement through this petition and my signature be counted as a formal comment in FDA docket number 00P-1211/CP 1.
